RESPONSE TO NOTICE TO FILE CORRECTED PAPERS

Mail Stop Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is a response to the "Notice To File Corrected Papers", which was mailed on June 14, 2004 for the subject application.

The application is considered informal by the Initial Patent Examination Group (IPE) since the drawings are viewed as not complying with 37 CFR 1.84(p)(2) and 37 CFR 1.52(d)(1). Specifically, the IPE contends that FIG. 6F contains text that was not in English that has been marked up to include the English text.

In compliance with 37 CFR 1.84(p)(2) and 37 CFR 1.52(d)(1) Applicants have submitted a replacement sheet for FIG. 6F that does not include the Korean text.

The IPE also contends that some of the drawings are not electronically reproducible. Specifically, FIGS. 3D, 3E, 11A-11E were found to be too dark.

It should be appreciated that the invention disclosed in the application relates to an image recognition device. As examples, different types of images were scanned. For example clear images as well as dark images were scanned. The figures show the different stages of recognition for the different images. Images that appear blurry are intentionally meant to be blurry. For example, some of the text in the figures are shown as being digitized. Taken by themselves, some of the figures may appear meaningless. However, they must be taken in conjunction with the specification. In addition, the invention uses a process of differentiating the background from the foreground. The background is darkened and the text is lightened.

It is possible that the copies of FIGS. 3D, 3E, 11A-11E that the IPE received are not clear. Applicants are submitting herewith in compliance with 37 CFR 1.84 four (4 sheets) of replacement drawings for FIGS. 3D, 3E, 6F and 11A-11E. Acceptance of the replacement drawings is respectfully requested.

Respectfully submitted,

Peter L. Kendall
